Clutch Pack Kits contain everything you need to upgrade your worn out clutch plates and springs! Each kit comes with new frictions, steels, and clutch springs, all made from premium grade materials. The frictions and steels are made to exact OEM tolerances and specifications, and produce the same feel and wear resistance of OEM plates. Wiseco clutch springs are 8-10% stiffer than stock to ensure a positive clutch lockup every time. Clutch pack kits are an easy solution to worn or slipping clutch packs.

Clutch Pack Kits come complete with friction plates, steel/alloy plates and clutch springs.
