

# New Product

## Harley Davidson Black Edition Twin Cam Pistons

Featuring ArmorX™ coating with ArmorFit™ skirt coating

### Features

- ArmorX™ piston coating
- ArmorFit™ skirt coating
- Dome design
- Superfinish piston pin
- Enhanced pin oiling
- Augmented ring land details
- Dedicated rings
- Experience

### Benefits

- Superior protection in extreme conditions, reduced wear
- Auto-adjusts to cylinder wall, no need to measure clearance
- Smooth, quiet, and trouble free operation
- Improved flame travel to maximize air/ fuel burn efficiency
- Reduced friction, improved scuff resistant
- Improved lubrication and better pin oiling, reduced friction
- Improved ring seal and function
- Precise fit, compression, and oil control
- Over 75 years as the industry leader in forged piston technology
